than four or eight years ago. Just there the remarkable ascuracy of republican canvassors was shown, and the close correspondence of the official returns with their estimates, made and published before the election, is conclusive proof that the actual result was not secured by animals. trading or by secret treachery of demoorats, by bribery or by any other timproper methods. Before the election the republican es.

timate actually published showed a plurality of 80,950 north of the Harlem pose of towering the microward of the Harlem river, and a democratic plurality of 70,000 south of the river. These were intended to be conservative estimates, and to be found within the truth. The actual republican plurality north of the Harken river according to official returns was \$4,941. The democratic plurality south of the river was only 1,656 larger than the estimate, which is particularly close figuring for the crowded population of two great cities and for 164,000 votes. The republican plurality north of the river was 4,000 more than the estimate, as published, which was intended to be absolutely safe. A pluality of 11,000 in the state was claimed, and a plurality of more than 13,000 was and a plurality of more than 13,000 was

The Senate Committee to Investigate the Alleged Dressed Beef Monopoly at St.

Louis. St. Louis, Nov. 21.—The Vest Senate committee met here Tuesday to investigate the alleged dressed-beef menopoly, with all the members present. They are: Senators Vest, of Missouri, chairman; Manderson, of Nebraska; Plumb, of Kansas; Cullom, of Illineis, and Coko, of Missouri, of the session. Texas. At the beginning of the session Seanter Vest said the committee was not here to defend or attack any interest. He then read the resolution under which the committee had been appointed to make an investigation as to the transportation of neef cattle and whother any combination existed on the part of the Trunk-line Asso-

oxisted on the part of the Trunk-line Association, Contral Truffic Association, or other agencies of transportation, or among those engaged in buying and shipping ment products, whereby the prices of beef cattle have been so controlled as to dinfinish the prices paid producers without lessening the cost to consumers.

The only witness examined was D. H. Snyder, a ranchman residing at Georgetown, Williamson County, Tex. Mr. Snyder said he was a buyer, seller, producer and raisev of beef cattle. He began business in Wyorning in 1866, and onlarged by establishing ranches in Texas. Prices of cattle were low in 1800, but advanced up to 1890, although he had known of instances where cattle worth fully \$40 a head had been sold though he had known of instances where cattle worth fully \$40 a head had been sold at \$20. The prosperous cattle business went to pieces in 1885. Witness believed this was due to ever production of beef animals. Prices were also affected by the fact that ranges were pustured down until the grass was not so good, and as a result cattle were lighter and not so fat. Most of the Texas eatile were sold in Chicago, it being about the only market open to trade. He had been do a combination of buyers at Chicago for the purpose of lowering the market, but had no personal knowledge of it. Such a combination would have wonderful power, and

or more than 13,000 was "big four" combination in Chicago—Armour, Switt Bros., Nelson Morris and Hammon—did not control the market, he results that a desperado in his hand can so terror—also lower. AN EYE ON CANADA.

President - Elect Said to Strongly Fevor Annexation.

PARTY LEADERS TO VISIT INDIANAPOLIS.

President Cleveland Writing His Farewell Address in the Quetade of Onk View—A Budget of Political Gossip.

MARRISON AN ANNEXATIONIST. INDIANAPOLIS, Ind., Nev. 21.—An inti-mate friend of General Harrison said yes-terday: "General Harrison, like all Presi-dents, will desire to do something that will give his administration a prominent place in the history of his country, and I have reason to believe that one of his first of-

reason to believe that one of his first official acts will be the negotiation for the annexation of Canada."

"What is his plan of annexation?"

"Be believes the United States can and should receive Canada in a ponceable manner. His idea is that the territory can be annexed to the United States by assuming Canada's dobt. If the territory can at the obtained for that consideration I think General Harrison would favor think General Harrison would favor paying a considerable bonus. I under-stand he has said privately that the sur-plus in the Treasury could not be spent in a wiser manner than by buying Canada. Whatever his plans for making Canada a portion of the United States may be, I know he heartly favors such a move, and will so recommend in his first message to

will so recommend in his first message to Congress."

Indianapolis, Ind., Nov. 21.—That General Harrison is confining himself too closely to his home is generally conceded, and it is said ho begins to feel the necessity for out-of-door exercise. A hunt of several days' duration has been proposed, and it is not improbable that he will visit the swamps of the Karkakee next month and spend a week in the sport. It is stated upon reliable authority that the General has given up the idea of heiding a conference with the party leaders in New York, the publicity of his plans having determined him to call the statesmen here. Those expected are Allison, Alger, Morton, Dopew, Miller, Edmunds, Sherman, McKinley, and possibly Biaine. The conference will be held at the residence of the General, and Edmunds will be his guest during the few days which he will spend in the city. The suggestion of Joseph G. Cannon for Speaker in the event of the Republicans controlling the House has met with a good deal of favor from Harrison's friends here, and it is claimed that his selection would be very gratifying to the President-cleet, as he would more nearly represent the Administration's views on the Southern question than one who was born and reared North, and that, whatever Cannon's Republicanism may be, he still retains a desired as oo the South prosper, and his election as Speaker would be regarded as an indication that Harrison did not intend to pursue an extreme course in dealing with that section. Harrison did not intend to pursue an ex-

TOO MANY VISITORS.

WASHINGTON, Nov. 21.—The President has gone to Oak View, where, it is understood, he will remain until he has completed the writing of his annual message. He has all the topics well in hand, but as visitors continue to be numerous he finds it impossible to prepare the decument unless he escapes from the interruptions which are unavoidable during his stay at the White House.

which are unavoidable during his stay at the White House.

The President has no plans for the future after the manguration of Mr. Etarrissen. He will probably rest for the best part of the year. Whether he will choose New York State for his residence is uncertain. It is by no menas improbable that he will go back to his native State.

New Jersey, and perhaps to the slope of the Orange mountains near which he was New Jorsey, and perhaps to mescole the Orango mountains, near which he was born. He is very cordial in his greetings to Jerseymen who visit the White House, and one of them, who called upon him today, was impressed by some of the President's inquiries with the belief that he seriously contemplated returning to New Jorsey.

THE VOTE IN PENNSYLVANIA.

HARMSBERG, Pa., Nov. 21.—The complete official roturns of the recent election in Pennsylvania show a total popular vote of 907,224, being an increase of nearly 100,000 over the total vote of four years agn. Hariston and Morton's plurality over Cleveland and Thurman is 79,571; their majority over all competitors is 54,550. The Thirdparty Prohibition vote was 20,745, being an increase of 5,000 in lour years. increase of 5,000 in four years.

increase of 5,000 in four years.

WANT TO VISIT HARRISON.

MINNEAPOLIS, Minn., Nov. 21.—The Journal's Bismarck (D. T.) special says: The Indians on the Sieux reservation are now becoming anxious to form the acquaintance of General Harrison. They realize that he will soon become the "Great Father," and they desire to meet him and present their claims regarding the proposed opening of the reservation. They want to visit him before he is inaugurated, and the agents will be greatly annoyed by their importunities unless their request is granted.

FROPOSED CONTESTS IN MISSISSIPPL.

Jackson, Miss., Nov. 21.—The Republican State Executive Committee met here and unnumously advised that contests be made in the Second, Third and Seventh Congressional districts, now represented by Messrs, Morgan, Catchings and Hooker. General Chalmers is being urged by his friends for a Cabinet position.

INDIANAPOLIS, Ind., Nov. 21.—It was morethan ever apparent at the incrning session Tuesday that Powderly's is the master mind. As has been published, Mr., Powderly has stated his willingness to continue in office under certain conditions. The report of the Committee on Law, which was submitted, was exactly in new cordance with the conditions expressed by Mr. Powderly. Section 15 of article 3 of the constitution was mended to provide that the clective officers shall be a General Master Workman, General Worthy Foreman, General Executive Board shall consist of four members besides the Grand Worthy Foreman Master Workman and the General Co-operative Board shall consist of four members besides the Grand Worthy Foreman. All except the General Executive Board and General Co-operative Board shall be taken from the floor of the General Assembly, and when elected shall serve two years. This is a reduction of two members in each board besides a union of the offices of Secontary and Treasurer, and is that much of a saving in exponses. In tsection 16 of article 3, however, Mr. Powderly's influence most appears. That article, hereafter, will provide that the General Master Workman shall be chair-In isoction 16 of article 3, however, Mr. Powderly's influence most appears. That article, hereafter, will provide that the General Muster Workman shall be chairman ex-officie of the General Executive Board, and shall as soon as practicable submit to the General Assembly the names of eight persons, cligible under the constitution, from which the General Assembly the state of the constitution of the state of the constitution of the state of the

stitution, from which the General seambly shall select four members.

The section further provides that the General Worthy Foreman shall be not office chairman of the General Geoperative Board and that he shall submit to the General Assembly four names from which they shall elect two who will constitute that beard. hat board. When these amendments were proposed

that board.

When these amendments were proposed there was carnest contention as to their advisability. To the consolidation of the edition of the secretary with the office of treasurer there was general assent. As an accommendation of the treasurer there was general assent. As an accommendation of the proposition of the ground that they tended to one-man autocracy. In bohalf of Powderly the pleasures entered that no general master workman could accomplish the best results unless the Executive Board be in harmony with him and personally acceptable to him. Lichtman defended the amendment as necessary and, therefore, highly desirable. George Schilling, of Chicago, was again found in opposition to Powderly. His position, and the views of others who saw the matter in the same light, was that the tendency is to concentrate too anuch power into a few hands and to remove from the hands of the delegates all the privileges that are worth. gates all the privileges that are worth contending for. Several attempts to amond the committee's report were de-tented. A two-thirds majority is required teated. At whether a high the vote was taken the muster working counted 95 affirmative and then stopped. That was more than enough. The amendments were easily carried, and Powderly constraint making of the situation. tinued master of the situation.

inued master of the situation.

The work of the morning session progressed so well that the same line was alkening in the afternoon. The report of the committee being resumed, section 28 charged in the section 28 charged in th the committee being resumed, section 29 of the constitution was so changed that the filling of all vacancies was placed in the hands of the masplaced in the hands of the masplaced in the duty of countersigning orders and vouchers, a thing of which he complained in his address. Another change in the fundamental order, suggested for the purpose of pacifying the opposition, was an amendment in effect that the seat of any general officer may be declared cacant by a majority of the General Assembly in regular session. All of Powelerly's decisions since the Microcapolis convention were approved. The committee reported adversely upon the proposi-

convontion were approved. The committee reported adversely upon the proposilion to set aside \$30,000 for co-operative
purposes, and the report was adopted.
Support was formally withdrawn from the
buildrich News, or Toledo, the committee
reporting that it was no longer a co-operative paper. Just before adjournment the
committee reported that the mileage due
to members aggregated \$7,503.

Now that every thing is going Powderly's
way, there is no talk of any other candidates for the office of master workman,
and he will certainly be re-clected. Candidates for other positions are making a
rigorous canyas and a good deal of interest

didates for other positions are making a rigorous canvas and a good deal of interest is manifested. Turner, the present treasaror, and Hayes, secretary, are candidates for the combined office. Robort D. Layton, formerly general secretary and a popular man, was a candidate for the secretaryship, but he is understood to be out of the race. His following was perhaps larger than that of any other candidate. Friends of Hayes claim something of an advantage for him in the race. Richard Griffiths, of Chicago, is general worthy foreman, and is a candidate for re-election. For General Executive Board it is believed that Powderly will nominate among others the following: Ira B. Aylesworth, Tom.

following: Ira B. Aylesworth, Tom O'Reilly, Frank Turner, John W. Hayes, P. B. McCuire, of New York; Robert R. Elliott, or some other Canadian.

HOT SHOT FROM HARRY. INDIANAPOLIS, Ind., Nov. 21.—Lale Monday hight T. P. Barry furnished a long serced to the press charging the Powderly administration of the Knights of Labor with screed to the pross charging the Powderly administration of the Knights of Labor with apping upon the actions of all delegates; suspected of opposing Mr. Powderly suspected of opposing Mr. Powderly Tuesday Mr. Barry issued a formal open otter to delegates, in which he charges them with having denied him a fair trial and an opportunity to be heard in his own defense, in violation of all law of knighthood and justice. The letter continues:

"By your action you have placed yourselves in full accord with the unlawful and unwarranted action of the General Executive Board, when I had charged with fregalarities, and who, being mable to answer my tharges and fearing to meet me, reserted to all manner of intrigue to override the constitution and deny me the right of a fair trial such as is guaranteed to every Knight of Labor. You have outraged justice, lowered your manbood, and misrepresented your constituents by your vote, and you depend on false reports and burying your action in silence on your return home, as has been done after past sessions of the Ceneral Assembly. Since you have refused to give me an opportualty to defend myself I will now publish a few of the charges I made, and I defy you or those whom you sentain by your votes to prove them false. I will meet you or those whose actions you sustained on the restrain before the part of bubba opinion and prove from decuments and winesses the correctness of my statements and uncover the mask of sham reform from the designing hypoerites who are now deceiving humanity."

statements and unever the mask of sham reform from the designing hypocrites who are
now deceiving humanity."

Air. Sharry then makes numerous chargos,
which he declares his ability to prove. Among,
thom are the following: That Powderly andflayes have pold large suns to persons who
have never rendered service therefor; that
non-union men have been employed in the genman article. The proving hear re-

of United Thom? Builden used to destroy the character of a man and a district; that no employer was ever more crued in seeking to violitize those who differed with them in opinion than were the general officers; that charges published against him (Barry) in the Jamrat of United Lober were positively untrue. Mr. Barry concludes as follows:

"Can Mr. Pewderly of any of his friends name a strike or lockout that was in the interest of labor? Volumes might be written of the defeats of labor's undertakings through his cowardies and trenchery. He has given much buncomb to the order about his overwork, and has a standing notice inserted in the Jurnari notifying the order not to annoy him with letters or invitations to lecture, etc. John W. Hayes informed me that Terry' had completed his studies of law and could be admitted to the bur any time he made application, and he was now studying the languages. No doubt after his studies of languages are completed the social problem will be solved for him, if not for powerty, who foots the bill. In conclusion, to the representatives I will say, in view of these facts and others which I night enumerate, you must appreciately you wostion. I assure you lob mine, and if I acted otherwise than I have and intend to act in the future I would be false to myself and or processed labor.

The Big Convention at White Courses to Organize the New Territory.

Wighter, Kan, Nov. 21.—An inter-State Oklahoma convention was in session in this city Tuesday. It was the largest domonstration ever hold in the West for the purpose of opening Oklahoma Territory. Citizens from the lakes to the guif were present, including Congressmen Springer, of Himols: Weaver, of Iowa, and Mansur, of Missouri. Governors Adams, of Colorado, and Martin, of Kansas, were also present. The temporary organization was effected in the movening after the 3,000 delegates had been called to order by George L. Rouse, Sr., of Wiebita, in Crawford's Opera-House, Judge J. S. Emery, of Lawrence, was elected temporary chairman and W. T. Walker, of Wellington, Kan, temporary secretary. After the election of temporary officers the convention adjourned until 2 p. m. When the meeting roassembled a proamble and resolutions were presented and adopted unanimously. The preamble recites that the rights of the Indians would not be impaired by the opening of Oklahoma to settlement; that unless it is so opened lawfully possession will be sought by illegal means, and that the penceable settlement of the Territory would put an end to the lawlessness and crime which now prevail in the absence of any civil government. The resolutions call upon Congress to pass the ponding off to organize the Territory of Oklahoma, and upon the President of the United States to enforce the law how existing or to be cacacad looking to the establishment of the Territory. Samuel Delman, of Topeka, was then elected permanent chairman, and H. L. Pierce, of Wighta, secretary. During to the establishment of the terry. Samuel Dollman, of Topela, was then elected permanent chairman, and H L. Pierce, of Wichita, scoretary. During the afternoon Congressman Springer delivered an address. He paid particular attention to his bill now it Congress. General J. B. Weaver, of Iowa, spoke at night. Congressman Mansur also made an address. All pledged themselves to work for the passage of the Springer bill during the early days of the approaching session.

have been compelled to incur additional

expense, and will be obliged to charge twenty cents instead of fifteen cents for supper. The Rectory society's suppers are one of the fixed institutions of the city, and will continue to draw incressed patronage as long as the ladies insist in giving more choice estables than the hangry can procure for the same money

MISS MADDERN TO-NIGHT.

A Treat for Janesville Play-Goers Reid by the Enemy.

Seats for Miss Maddern's engagement this evening have sold with unusual rapidity. Miss Maddern has been warmis praised wherever she has appeared. The New York World of a recent date asva:

"In spite of the discomfort of sitting in a close theatre on a sultry night, the Bijon Opera House was filled from pit to dome last evening by an audience which had gathered to welcome Miss Maddern back to town once more. And if constant applause, repeated encores and inwelcome was warmly deserved. Given "Caprice" as a play, with Miss Maddern in the principal role, and there is a preventive against misery for one evening certainly. Miss Maddern as Mercy fairly ripples with merriment and is overflowing with fun. The first words she utterble party of achool-girls to explode with joined her and left the house with aching

HELD BY THE ENEMY. In speaking of the production of "Held by the Enemy" at Baltimore, the Baltimore News says:

The audience was large even beyond expectations. At 7:30 o'clock every reserved soat except a mere handful in the probestra had been sold, and several hundred persons pressed into the foyer clamoring for admission. By 8:30 nearly a thousand people were turned away. Souvenirs were given to nearly all the ladies as they entered. The performance pleased the audience from the opening strains of the orchestra to the closing lines of the play. William Gillette's "Held by the Enemy" is a drama of acknowledged excellence. It was rendered by a good company, the leading members of which did tips work and the others as well as their parts demanded. Several striking new effects were introduced, including the imitation of a horse galloping upon a stone pavement and the burning of a bridge in the

Complaint Regarding the Local Foun

"What a dry winter this will be, if even the public watering troughs close up," remarked one west sider to another this morning. His remark was prompted by the sight of a team of thirsty horses that were doing their hest to climb over the Corn Exchange grass plat and get within reach of the water in the basin. The drinking countain itself had been shut off, and no water was in sight except that in the display basin.

"Seems as if it would be a good idea," continued the speaker, "if that drinking fountain could be kept running all winter. All that is needed is a dry well ten feet deep or so to take the water as it

I am called to the end of railroads in any or every diraction, and when I go into the Sunday school there I find the same truths are studied that I was intending to teach at ducing a young people's training department for teachers, something

nome. And now Mr. Jacobs is introlong time needed. He will doubtless give us his plans to-morrow evening.

To return to our first meeting. The To return to our arst meeting. The interest brought out many new thoughts, inspiring and refreshing. You will pardon me tor refering to one or two more subjects. "The Relation of the Sunday school to the church," was maintained a familiar one; it was the church course out in action in that direct maintained a familiar one; it was the church going out in action in that direction a mission work. Teachers were cantioned against exalting the church above the church. The great aim should be to exalt Christ and bring the scholars to Him, and they would then want to be identified with] His people. The manner of that and subsequent ple. The memory of that and subsequent meetings is pleasant. At times there have been differences of opinion, and quite a breeze would be calmed by the real true love we entertained for the knows no man as a Baptist or Methodist.

church as in a Presbyterian or Congregational church. Our sim is to be one During the twenty years of our exist-During the twenty years of our exist-ence we have neld thirty-eight meetings, always coming on Tuesday and felosing on Wednesday evening. Two summer meetings were postponed on account of the Monora assembly, supposing we could receive greater benefit thus then holding our own. We were soon satisfied of our mistake and returned to our first love. Only one in a bundred could or would go, it being impossible for a person of limited means to attend, although the aim is to have the price within the reach of all. There may be a within the reach of all. few exceptions but the majority of S. S. temphers are not able to go to any resort

for the mind, but particularly our desire has been to compare notes and one for another. Friendships and pray

been formed that can be enumerated only by hundreds who will ever forget the dry wit of Rev. John McLeac, whose home now is on the westernelops or the sweet accompaniments from the fingers of Loren Cheney, or the wonderrole compass of voice of the Rev. E. L. Eston as he sanges no other cap, "The palace of the King," Was there ever a couple who for fifty years have been singing together, and with the children can touch every chamber of the soul, and whose songs have inspired the poet's pan other than our dear Mr. and Mrs. Russell, or more familiarly styled Father and Mother Chency? A A٩

cords whom we never more shall meet in our convention. Rev. Henry Polley, who in early days did a good work establishing schools, was truely entitled to the name applied to him. "The Chil-dren's Minister," Mr. O. J. Dearborn, and many others. I must speak of Mrs. Fred Griffling, who for nearly seven years as secretary, did her own reporting and kept the records. We shall always feel grateful for her faithful service. The conventions have been held in the following places: Janesville, five times; Beloit, four; Clinton, eight; Evansville, six; Milton, five; Milton Junc-tion, two; Shopiere, five; Edgerton, one; Emerald Grove, one: Cooksville, two: besides eight institutes of only one day,

held in places not mentioned. In 1880 the association awoke to the realization that we were only meeting and gathering stimulus for our own schools. We had not thought of destitute portions of the country, without church or Sabbath schools, when a resolution was presented and adopted, requesting the president and vice presidents who constitute the executive committee, to go about the and find places for es establishiug and schools and try and get the people rend-ing near by to encourage the effort by being present. This was undertaken and much was accomplished. Feeling we had started in the right direction, we were not satisfied without further action and more specific work, and to do this work we needed a head, a general, a Joshus. We did not find a man who had ranked in military titles as general, we did find a former major, who said. "I will go," and he did go, and you know how much time and expense he has been Rev. Mr. Kirkham and Rev. Mr. Case at to do this work. But we pay no sal-were among the number. Of this num-aries and the resolution oreating the office of general superintendent states that as a return for services he should have the reward of well doing. Brother J. H. Kinney could not be expected to spend all of his time. He did spend the larger part of it, and if I could prove upon some millionaire to give him a lib-

eral support and keep him in the field, I believe it would be as good an investchairman, proposed a constitution which hundred fold; have traveled since May was adopted, the second article of which 20 by carriage 332 mules. The work has 20 by carriage 332 miles. The work has only commenced. Fifty men and wom en could find ample field for Christian labor. Who will volunteer? To look forward to twenty years seems a long time, and when we remember that four of them constitute the limit of human hie, those of us who have passed the sec ond or third division do not think the time has been so very long, but startled to be reminded our work is so near its end. With thundering tones the in-junction rings in our ears, "Do with thy might all thy hands find to do." Rock county, the fairest of Wisconsin, has no equal. Her prairies, her river, her lakes, her Mt. Zion, her landscapes, all

delight which can be found in no other 24 miles by 30 that I know of. With all in nature so beautiful, we find only man is vile. We want the simple faith and love of the Nazarine, and go and first gathering were exceedingly inter-esting. One, however, was discussed and blossom as the rose."

"What fine chisel could ever yet cut breath!" and yet a hard vexing cough is cut all to bits with one bottle of Dr. Bull's Cough Syrup, the favorite.

GATHERING IN THE SHEKELS

Churles Bicknell, of Beist, Visits Janesville. When Charles Bicknell stepped off the Beloit train this morning he was a very different men from the Charles Bicknell who left it four weeks ago. His apparel was of the "latest" in every detail. A striking exemplification of the fast that "nothing is too rich for republicans" was

given. Mr. Bicknell was in the city to gather up his thirteen hundred dollars of election hets made between him, the Ryan brothers, and J. P. Worthington. The lesers expressed themselves as willing to pay up at once but there was a disagreement among the stake holders and the payment of the bets was deferred

"I don't quite like the way this thing has been run," said Mr. Bickwell, quietly, "but of the Ryans and of Mr. Worthington I can say that they have soled like | Wednesday evening and about sixty at gentlemen from the first."
